

day 3

**Packed and dressed up,
to the dock we depart!**

Welcome to the third challenge of our #creativeindoorchallenge !!!
Today we will get ready to go to the dock, and leave in our boat. Let's give everyone we love a message!

Please print the two following pages for as many people as you wish to participate at home.

Today you will only need paper, scissors, and colours or markers.

the first part of our challenge is another origami task: this time we will make a cootie catcher. With it, we will be giving everyone in our family a little "fortune telling message". Let's get creative!!!

Then we will colour our activity and get ready to go to the dock. Tomorrow we will use the boat we made on day 01, so we can sail to our adventure!

This little cootie catcher is great for assigning tasks to your little ones, and enjoying them more!

Enjoy this activity of our #creativeindoorchallenge with your family, remember we can all enjoy this more if we complete our tasks together!!!

Remember to follow us on instagram [@ourboxparties](https://www.instagram.com/ourboxparties) so you can participate in the challenge and post your challenge on your feed or story tagging us and using the hashtag #creativeindoorchallenge so we can see your beautiful activities! (If we can't follow you, we won't be able to see your posts!!!)

Share this challenge with your friends, family, neighbours, and teachers!

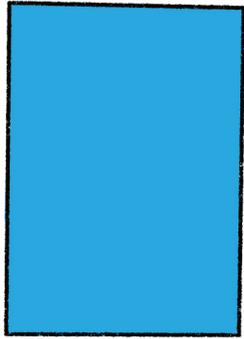

We can be creative and fun while being indoors, and enjoy this beautiful time together!

Stay safe, remember to wash your hands, and enjoy being creative!!!

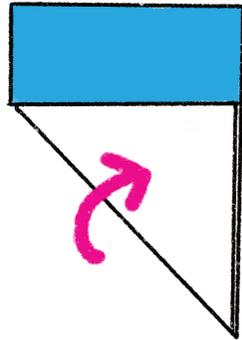

day 3: Packed and dressed up, to the dock we depart!

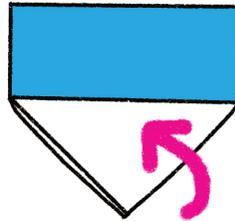

This little origami craft is a wonderful way of playing and telling everyone's luck. You can colour the inside with different colours or patterns, and then put messages inside each. Pick a number, open it as many times as the number says and try your luck!

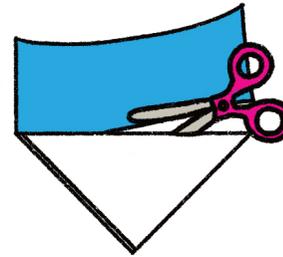

1. Grab a sheet of paper.

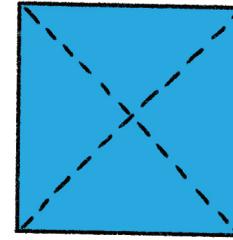

2. Fold up the bottom left corner so we can make a square paper.

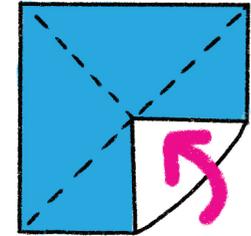

3. Fold up the bottom right corner, we are now seeing a triangle in the bottom.

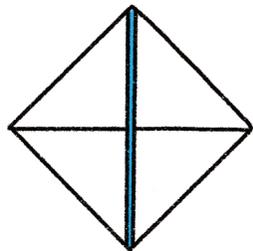

4. Cut the remaining part to make it just a square.

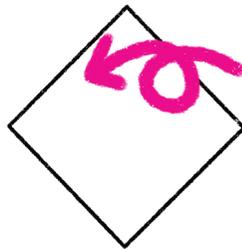

5. Unfold the paper, you will see it has the shape of a square.

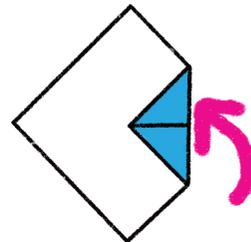

6. Fold one of the corners to the center of the square.

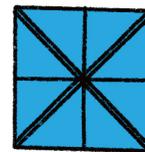

7. Fold up all the corners to the center of the paper, so we see a diamond.

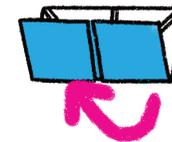

8. Turn the diamond to the other side (flip it).

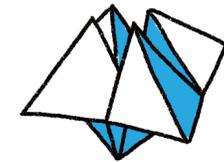

9. Fold one side to the center of the paper.

10. Fold all the sides to the center of the paper, until you see a square.

11. Fold up half of the square, so we see a rectangle (triangles inside and squares outside)

12. Put your fingers inside the squares, you can move it like a puppet. Colour the triangles!
