

day 10

With the sun and the rain we use ice to paint!

Welcome to the tenth challenge of our #creativeindoorchallenge !!!  
Today, we will paint with ice and the rainbow! So let's get everything ready for a colourful day!!!

Please print the three following pages for as many people as you wish to participate at home.

Today you will need a muffin tin from the kitchen, water, paints, a toothpick or anything else to mix, paper, and colours or markers.

In the first part of our challenge we will learn about the colours, and how we can make more!!! Then we will search for objects that have these colours and put them next to our colour wheel. Then we will make coloured ice blocks and we will paint with them!

Our colouring activity is about when we arrive on an island! Let's get exploring, and enjoy coloring everyday, so that we can make a wonderful book to show our friends later!!!

Have fun with this activity of our #creativeindoorchallenge with your family! Remember we need someone to help us with the paint and the freezer. Let's be careful and have fun together!

Do you follow us already on instagram [@ourboxparties](#) ? We need to see you with your posts and tags, to keep track of your participation in this **#creativeindoorchallenge** ! (If we can't follow you, we won't be able to see your posts and include you as a contestant for our winner's prize!!! )

*Share this challenge with your friends, family, neighbours, and teachers!*

*We can be creative and fun while being indoors, and enjoy this beautiful time together!*

***Stay safe, remember to wash your hands, and enjoy being creative!!!***

# day 10: With the sun and the rain we use ice to paint!

Follow the instructions to make fantastic ice blocks to paint with! We need a bit of patience, while the ice forms in the freezer. While we wait, we can make our second activity with the colour wheel.

1. Take a muffin tin from the kitchen and put it on a table. Then, add a few drops of paint in each muffin hole.

2. Add water to fill each muffin hole.

3. Use a toothpick, or any other object to stir and mix well the colours and water. Put them in the freezer for about 3 hours.

4. Take the colour ice blocks out from the freezer and get ready to paint! Messy style!

5. Slide each ice block around and have fun mixing the colours together!

6. Tadaaaa!

# day 10: With the sun and the rain we use ice to paint!

This is a colour wheel. Our three primary colours -yellow, blue, and red- mix with each other to create the colour between them. Paint each part with its colour, and then find 5 objects of each colour to put next to the wheel. Enjoy the rainbow magic making and the colour hunt!
