

day 11

Binoculars to explore
all things far and close!

Welcome to the eleventh challenge of our #creativeindoorchallenge !!!
Today, we will make some cool binoculars, and then we will find some animals around!!!

Please print the three following pages for as many people as you wish to participate at home.

Today you will need a couple of toilet paper roll tubes, cardstock, scissors, glue, a string, and anything else you wish to decorate your binoculars with (yarn, buttons, shells, seeds), paper, and colours or markers.

In the first part of our challenge we will create a cool set of binoculars to explore and see everything that surrounds us at home! It will be a fun craft to make and use all day! Then we will search for animals that we are finding on the island, as we count them, and see how many we can find!

Our colouring activity is about exploring and seeing everything that surrounds us :) Remember we can use these colouring pages to make our own book later!!!

Have fun with this activity of our #creativeindoorchallenge with your family! Let's have fun together!

Tell your friends to follow us, so we can all see your wonderful creations! Our instagram account is [@ourboxparties](https://www.instagram.com/ourboxparties)
We need to see you with your posts and tags, to keep track of your participation in this #creativeindoorchallenge !
(If we can't follow you, we won't be able to see your posts and include you as a contestant for our winner's prize!!!)

Share this challenge with your friends, family, neighbours, and teachers!

We can be creative and fun while being indoors, and enjoy this beautiful time together!

Stay safe, remember to wash your hands, and enjoy being creative!!!

day 11: Binoculars to explore all things far and close!

Follow the instructions to make these cool binoculars! You can find special things inside the house, and see things in a way you have never before!

1. Take two toilet paper roll tubes, along with some coloured cardstock.

2. Roll a piece of cardstock around the first tube, adding some glue on the edge. Once you finish covering it, add more glue to seal the cardstock.

3. Do the same with the other tube. You can glue them together in the middle.

4. You can decorate the cardstock with more colours, or with tape, bonding them together! You can also use pieces of other materials :)

5. You can also make a little hole on each side, and put a thread, yarn, tape, or string to hang them around your neck! Just make a big knot at the end.

6. Woooohooo!

day 11: Binoculars to explore all things far and close!

How many animals can you find? Do you know what sounds they make? Count how many of each are in this paper, and add a colour to each to identify them better!
